

Proceeding of Research Extension meeting at KrishiVigyan Kendra, Jajpur

The Research Extension Linkage Meeting and Action plan 2017-18 meeting was conducted at KVK, Jajpur Barchana on **20.06.2017 (FN)**. Senior Scientist & Head KVK, Jajpur welcomed Associate Director of Research , RRTTS, Ranital, Deputy Director of Agriculture, Chief District Veterinary officer, officers of agriculture and allied department, NGOS and farmers. She requested Deputy Director of Agriculture Jajpur to chair the session.

Senior Scientist & Head presented the technological interventions proposed for doubling of farmers income in five model villages. Previously three module village were taken as module village in this current year two new villages were taken up namely village patramara of Block-Sukinda and village Jari of block-Binjharapur. Senior Scientist & Head discussed about all the programmes to be carried out from this year in module village. She requested to the officers of line department to work in a convergence mode for doubling farmers income. She requested all the members of the house to provide their valuable suggestions for doubling of farmers income.

Deputy Director of Agriculture Jajpur suggested to give stress of three things for doubling of farmers income is reduction of cost of cultivation, soil test based fertilizer application and increase in yield.

Chief District Veterinary officer enquired about the growth performance and egg laying capacity of the pallishree breed. The farmers of choromuha and Dihakuransa expressed their satisfaction on the growth performance of the breed. The female birds are laying eggs continuously without interruption. The average egg laying capacity is 130eggs/. CDVO suggested to keep the female birds for egg laying and to sell the male birds for meat purpose.

ADR, suggested to use herbicide in paddy in second year instead of third year intervention to control weeds in all the modules. As micronutrient deficiency is there ZnSo₄@25kg/ha is to be given as third year intervention.

In first year intervention Tomato var-Swarna Vijaya demonstration was conducted in village Choromuha. The yield was satisfactory but keeping quality was not good. The house suggested to keep var. substitution of tomato by BT-136 in this year. This variety is bacterial wilt tolerant and it has good keeping quality too.

Assistant Horticulture officer told the farmers to provide mango, Papaya and drumstick seedling in subsidized rate.

ADR requested all the line department to work together in convergence mode for the wholesome develop of farmers. He suggested to include the beneficiaries of module village in the beneficiary list of different govt. programme.

All the farmers shared their experience of the first year programme. The farmers of village Patramara block-Sukinda and village Jari block-Binjharapur are also present in the meeting.

Vote of thanks was given by Mrs. Dharitri Patra, Scientist (Home Sc.) at the end of meeting.

Submitted to Dean Extension Education, OUAT, Bhubaneswar for kind information
